

CARTRIDGE IMMERSION HEATER

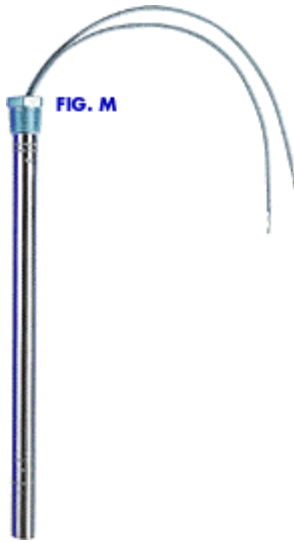

Figure M is a brass, steel or stainless steel pipe fitting which allows liquid tight installation through threaded openings. Fittings are brazed. For welded fittings and other cartridge immersion heater variations, scroll along this section. Be certain the watt density and sheath material are compatible with the material being heated.

Diameter	Pipe Size NPT	Pipe Fitting Length
1/4"	1/8-27	5/8"
3/8"	1/4-18	5/8"
1/2"	3/8-18	3/4"
5/8"	1/2-14	13/16"
3/4"	3/4-14	15/16"
Stock Sheath Length Is Immersion Length		

Fig. M Ordering Information

Select Mighty Watt Cartridge Heater from Stock, brass, steel or stainless steel pipe fitting and size, type of termination and lead length.
